PLAYING DIRECTIONS

Each player chooses a coin, bead, or small object to represent them on the board.

Each player rolls the dice and moves their object to that space on the board.

Each player should follow the instructions in the space where landed. If there are no instructions in a space, the player is safe.

Allow each player a turn, moving in a clockwise or counterclockwise order.

If choosing a card, the main player goes first, but each player must also follow the instructions on the card and dance, etc. This can be done as a group (i.e. dancing) or one by one (share a favorite).

The first player to land on the winner block wins. If a player does not land on the block, they must go back around the board until there is a winner.
